mtCharge+

MARKETTIME
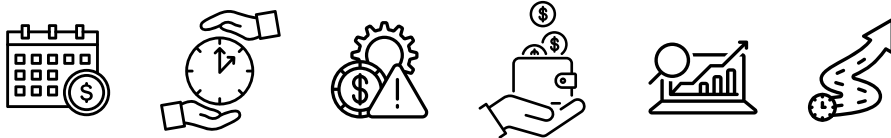

The most powerful and flexible payment processing solution in the industry!

mtCharge+ Features

- Process credit card payments from your MarketTime dashboard in seconds. No manual detokenization, or re-entering numbers.

- Accept all major credit cards, and request alternative payment methods from your MarketTime dashboard.

- Schedule credit card charges for net terms orders.

- Conveniently run pre-authorizations & process refunds from your MarketTime dashboard.

- Charge multiple payments against each P.O., adding shipping & misc. costs as needed.

- State-of-the-art security measures, including full PCI DSS 4.0 compliance, to protect your sensitive data.

- Integrated analytics & real-time tracking of your payment data.

- Reduce the risk of chargebacks/customer disputes with more accurate and informative business descriptors.
